

A heatmap visualization showing a color gradient across a grid. The x-axis is labeled 'Rank order' and ranges from 0 to 1000, with major ticks at 0, 200, 400, 600, 800, and 1000. The y-axis is unlabeled but has 10 horizontal grid lines. The color scale ranges from dark blue (low values) to light blue (high values). The bottom-left corner (low rank order, low y-axis value) is the darkest blue. The color gradually becomes lighter as rank order increases and as the y-axis value increases.

Rank order
