

A heatmap visualization showing the importance of 1000 features for the 1000 most important features. The x-axis represents the 1000 features, and the y-axis represents the 1000 most important features. The color scale ranges from dark blue (low importance) to yellow (high importance). The heatmap shows a complex pattern of importance, with some features being highly important for many of the 1000 most important features, while others are less important.
